

Exercise 2

Script

```
#!/usr/bin/env bash

cont=0

while read -r file; do

    cont=$((cont+1))

    if [ "$file" == "The name of the fruit is:" ]; then

        linea_fruta=$((cont+1))

        linea_rep=$((cont+3))

    fi

    if [ "$cont" == "$linea_fruta" ]; then

        echo "Fruta: $file"

    fi

    if [ "$cont" == "$linea_rep" ]; then

        echo "Repeticiones: $file"

    fi

done < "archivo.txt"
```

Execution of the script:

```
marta@marta-VirtualBox:~/Examen$ ./script.sh
Fruta: Pear
Repeticiones: 12
```
